Forecast for Thursday 11 Feb 2021

Weather: A dry and bright day, however very cold with few lower parts lifting above freezing, also with winds strengthening lying snow will increasingly drift. Isolated snow showers beginning to feed across eastern ranges to the north of the Black Isle during the evening.

Chance of cloud free mountain/hill tops above 800m: Almost 100%, perhaps lowering 90% across eastern ranges to the north of the Black Isle during the evening.

Visibility: Generally excellent or very good but poor or very poor in drifting, also in any later snow showers in north and where bases lower over hills in and around these showers.

Met Office Aberdeen Meteorologist's View
Severe wind chill and drifting difficulties anticipated.

Forecast for Friday 12 Feb 2021
Weather: Very cold again. Most staying dry and bright, however a few light snow showers in the north and east, and with strong summit winds the wind chill and drifting will continue to bring potentially hazardous conditions.

Maximum wind: Southeast mean 30-35mph with gusts reaching 50mph across most exposed ridges and summits.

Chance of cloud free mountain/hill tops above 800m: For eastern ranges to the north of the Black Isle 80%, otherwise 95% plus.

Visibility: Generally excellent or very good but poor or very poor in drifting, also in snow showers in north and where bases lower over hills in and around these showers.

Temperature: **Glens:** Minus 10 Celsius peaking at plus 1 Celsius during afternoon
At 800m: Minus 5-7 Celsius
Freezing level: All levels
